

LIEM TRUONG
WEB PROJECTS PORTFOLIO

Food Order E-commerce web site using MERN(MongoDB, Express, React Js and Node Js) with login and registration and user authentication.

Registration Page

The screenshot shows a web browser window titled "React App — Mozilla Firefox" displaying the registration page. The address bar shows "localhost:3000/register". The page features a "Register" form with the following fields:

- Name**: Text input field.
- Email**: Text input field.
- Password**: Text input field.
- Confirm Password**: Text input field.
- Address**: Text input field.

Below the form is a red "Register" button. At the bottom, there is a link "Already a user? Login here".

Programmer Analyst/Developer Trapeze Group

The project is an school bus application, it contains students, maps, routes and schedules. It is a web application using HTML, javascript and Visual C++ on Windows. I work on implementation of rework on broken features, most of the features are broken. I also fix defects and write sql (SQL Server) queries.
