

LIEM TRUONG
WEB PROJECTS PORTFOLIO

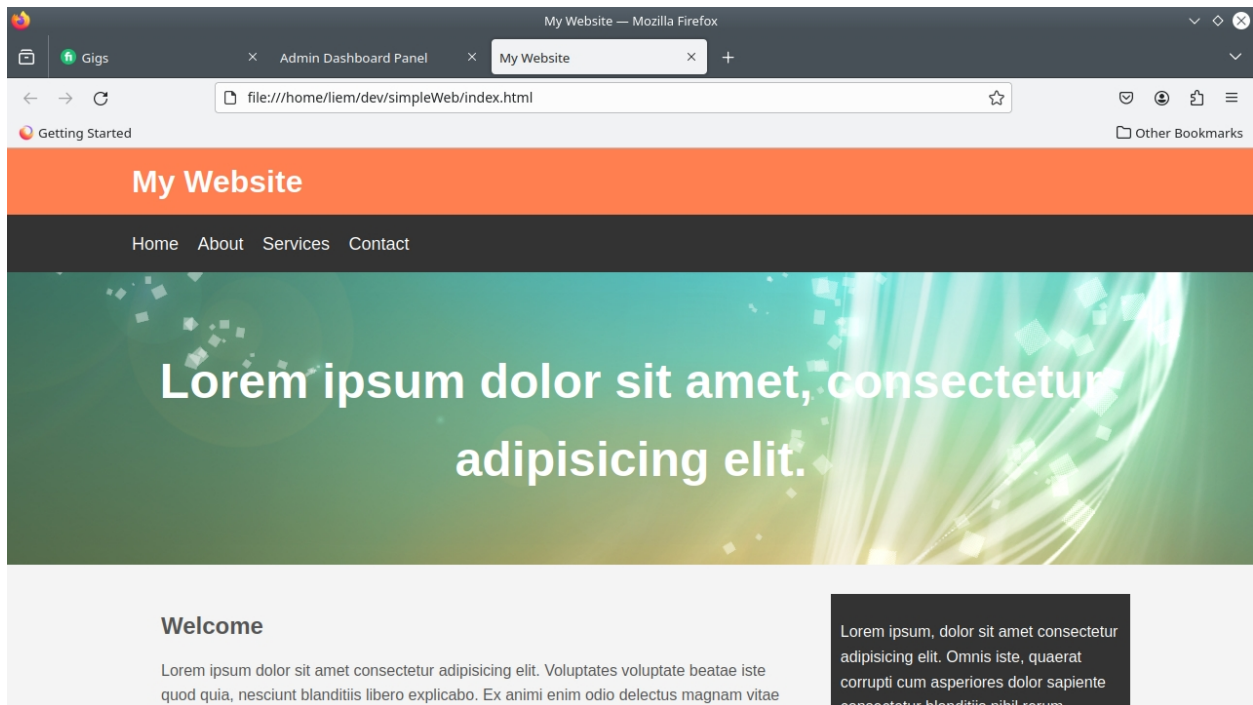

A Dashboard using HTML, Javascript and css

A Dashboard Dark Mode using HTML, Javascript and css

Web site layout using HTML, Javascript and css

Programmer Analyst/Developer Trapeze Group

The project is an school bus application, it contains students, maps, routes and schedules. It is a web application using HTML, javascript and Visual C++ on Windows. I work on implementation of rework on broken features, most of the features are broken. I also fix defects and write sql (SQL Server) queries.
