

LIEM TRUONG
WEB PROJECTS PORTFOLIO

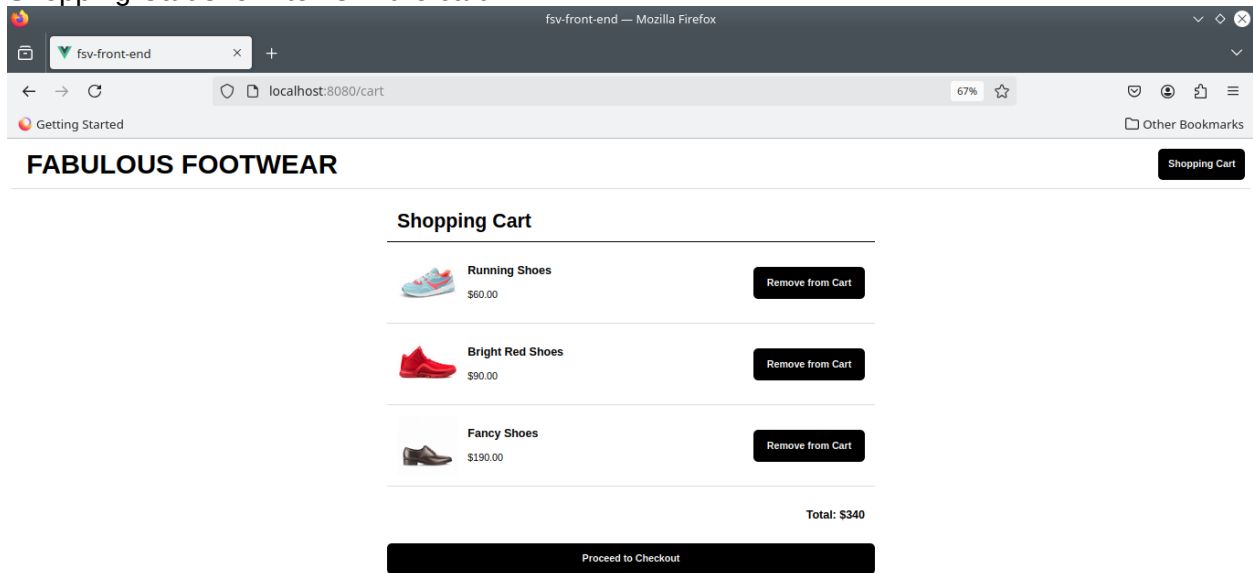

E-commerce web site using MEVN(MongoDB, Express, Vue Js and Node Js).
Product page showing shoes

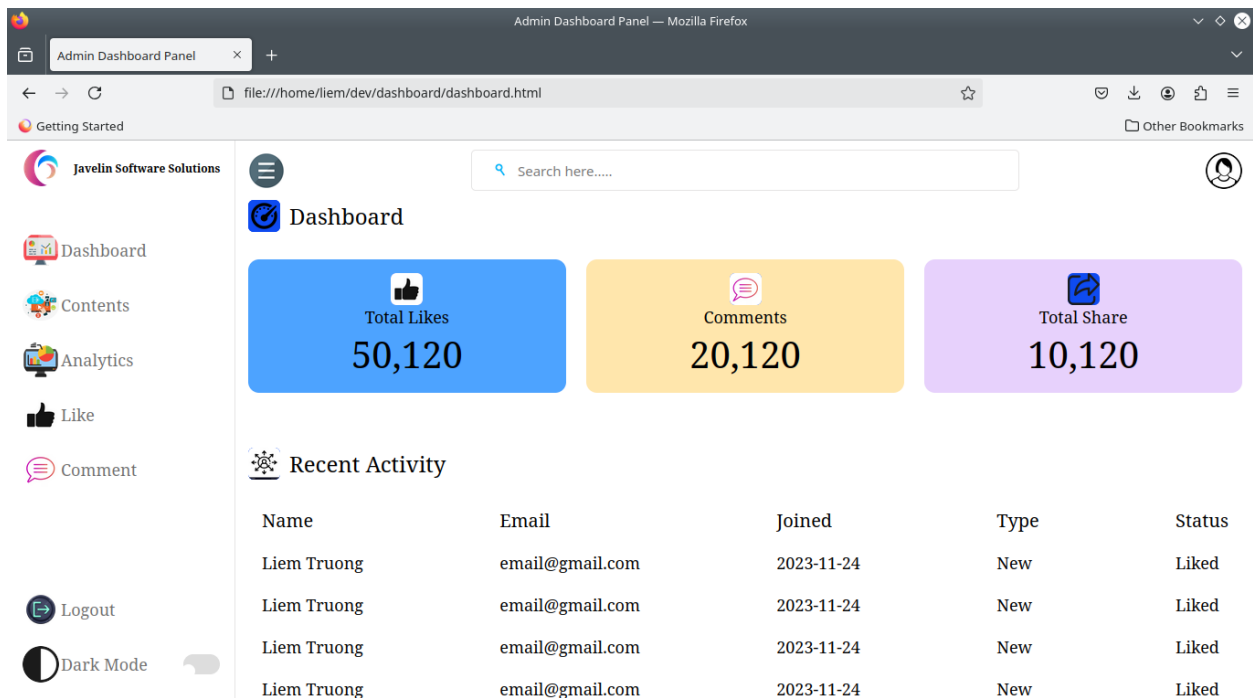

Details Product page showing item for sale, price and description

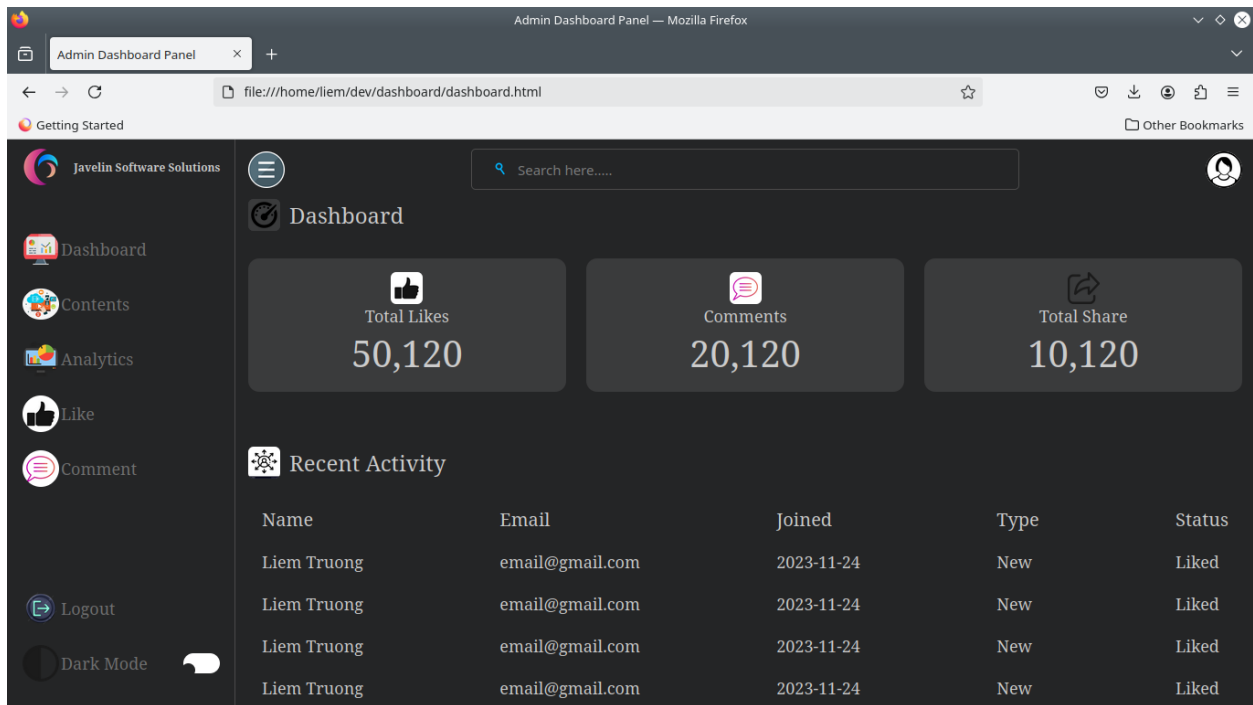

Shopping Cart show items in the cart

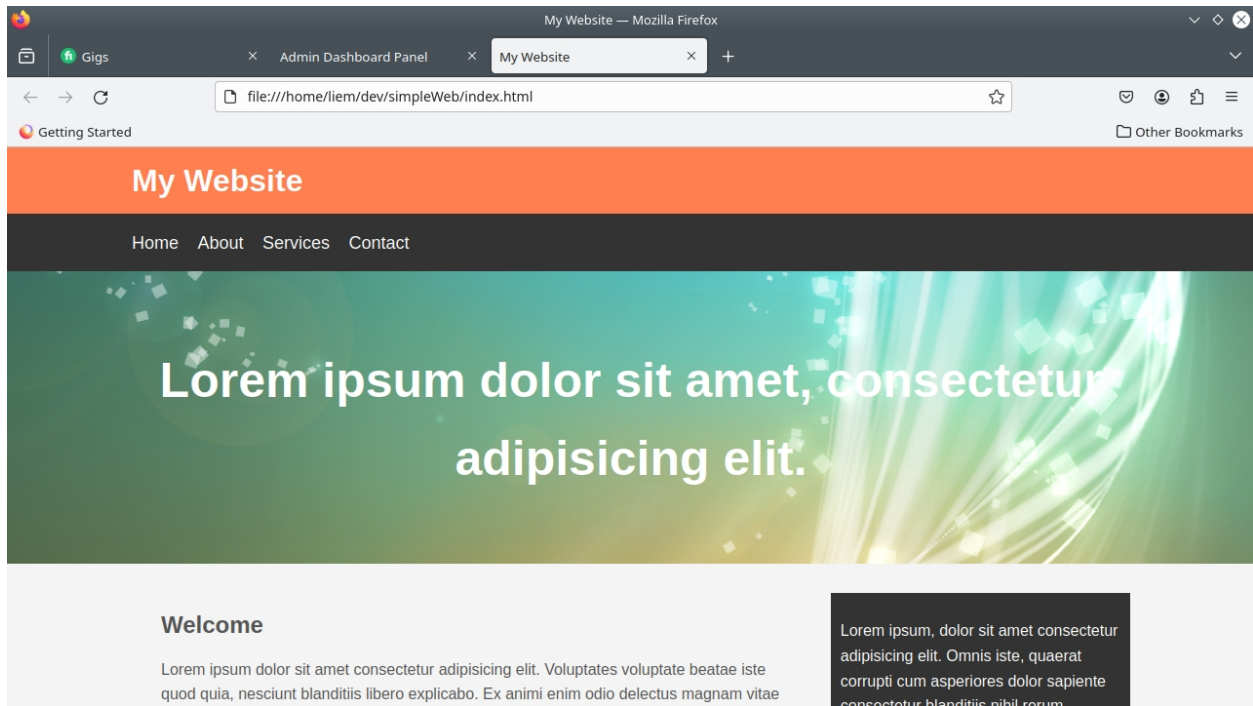

A Dashboard using HTML, Javascript and css

A Dashboard Dark Mode using HTML, Javascript and css

Web site layout using HTML, Javascript and css

Login page with form validation using JavaScript

The screenshot shows a Mozilla Firefox browser window with the address bar displaying `file:///home/liem/dev/simpleWeb/login.html`. The page features a dark blue background with a white registration form in the center. The form is titled "Registration" and contains the following fields:

- User Name:** A text input field containing "jonhdoe".
- Email:** A text input field containing "jd@jd.com".
- Password:** A password input field with a red border and a red error message below it: "Password must be at least 8 characters".
- Password Again:** A password input field.
- Sign Up:** A blue button at the bottom of the form.

Programmer Analyst/Developer Trapeze Group

The project is an school bus application, it contains students, maps, routes and schedules. It is a web application using HTML, javascript and Visual C++ on Windows. I work on implementation of rework on broken features, most of the features are broken. I also fix defects and write sql (SQL Server) queries.
